

Beginning on Monday, April 26, 2021, Duncannon Borough will be undergoing maintenance and repairs of various sewer lines.

Trinity Subsurface Engineering will be using high pressure water use to clean the lines, remove roots from the sewer lines, and then make point repairs.

Because of the high pressure needed to clear the sewer lines of debris, your home may experience water blowout from the trap of your toilets.

WE SUGGEST...

- That you keep the toilet seats DOWN at all times during this process for containment of any blowout.
- Place a large trash bag or tightly wrapped plastic wrap over your toilet bowl and lid in case pressure is released into your toilet. This will help to contain any toilet water backflow.

Below is the planned work schedule. This schedule is contingent upon good weather and is subject to change:

Monday, April 26 – High Street between Chestnut and Cherry Streets

High Street between Fritz Ave. and Newport Rd.

High Street between Rachel & Cemetery Streets

Tuesday, April 27 – High Street between Rachel & Cemetery Streets

Wednesday, April 28 – Highland Ave. between Center & Locust Streets

104 Center Street to 219 Center Street

Thursday, April 29 – Ann Street between Water Street & Market Street

Market Street from Plum Street to Broadway Ave.
