

This is an important message from Duncannon Borough

As a result of a drop in water storage levels due to the elevated temperatures and a potential leak, Duncannon Borough has activated Phase 2 Emergency Water Conservation measures as outlined in Ordinance 432. These mandatory water restrictions are due to low Reservoir Levels and are effective immediately. Water conservation measures are no longer voluntary. All residential and commercial users are required to reduce your essential water usage and eliminate all non-essential water usage. Non-essential water use includes actions such as watering of lawns and gardens, washing of cars, filling of pools, and exterior cleaning activities. These activities are prohibited until further notice. The Borough is actively working to resolve the situation. We appreciate your cooperation in this matter. Thank You!
